First steps in TrackNow

1 You will receive an Email from Agheera (CRM user) with an invitation link. Follow the link. It is recommended to change the password thereafter.
PLEASE: do not use Internet Explorer as browser.

2 Go to the **Customer area**. From here you can **Send Carrier invitation** to register online with Agheera.
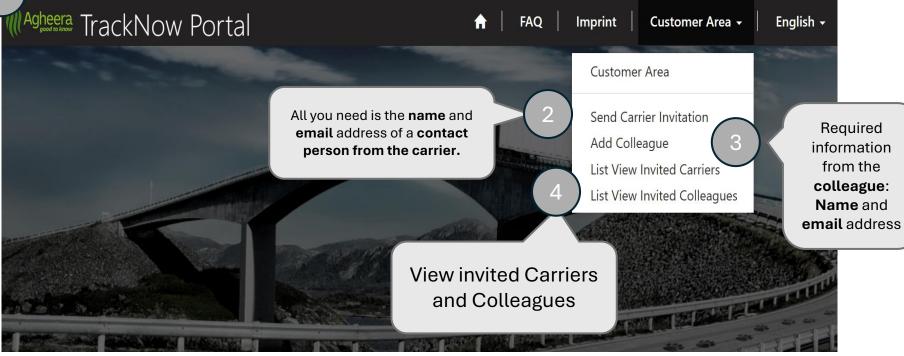

What is TrackNow?

TrackNow is Agheera's online registration portal for carriers

Carriers provide their consent to share GPS tracking data with Agheera.

TrackNow replaces the paper based approval process, a signature from the carrier is no longer needed.

You receive access to TrackNow, in order to trigger the invitation of your carrier(s) to start the registration with Agheera.
